Quality, Price & Advice
Gutter Tools & Accessories for the Professional.
The Petit Outlet Punch

Available in:

- 2 3/8" round
- 2 3/4" round
- 3 3/8" round
- 3" x 4" oval
- 3" and 4" for half round gutter

Are you still using snips or a drill to cut holes for your drops?

That’s slow and you’re probably wasting a lot of time. The Petit Punch makes a perfect hole every time and it’s fast and neat. The quality of the joint you wind up with is better than any other method.

The Petit Punch is a precision machined industrial grade tool. It’s a major time and money saver. You can cut a proper hole in seconds and then tap in a perfectly fitting Popin Outlet. You save time and money with the less expensive round outlet while still maintaining the highest quality standards. The fit-up between the gutter and outlet is tight and all that’s needed is a bead of sealer for a no-leak installation.

Our new 345 oval punch makes a precision hole in 5" or 6" gutter for our new 345 oval popin outlet.

The 3’ x 4’ oval punch will fit most oval outlets with a lip for fastening with rivets or screws. The oval has the advantage that you can turn an elbow.

Our new 3 3/8” round punch is for 6’ gutter, the outlet is too big to fit most 5” gutter. You will save time and money and pass more water with our 3 3/8” round Popin.

These punches are heavy duty and almost indestructible in proper use. You can have it sharpened at any tool shop or just send it back to us and we’ll fix it up like new for a nominal charge. The smaller round punches fit 5” gutter, and the 3’ x 4’ oval punch can be used with 5” or 6” gutter. The 3 3/8” round fits 6” gutter and some 5” gutter. The 3’ and 4’ round punches fit 5” and 6’ half round gutter—call for details 1-800-662-5678.

3 lb. Zinc-Aluminum Hammer

Not too hard, not too soft, just right for use with the Petit Punches. Industrial quality—American made.

One or two hits and you have your hole—safe, fast, easy. 4 lbs.
