345 Oval Punch

3" x 4" Oval

3" and 4" for Half Round Gutter

The Petit Punch makes a perfect hole everytime - fast and simple - giving you a quality joint every time.

The Petit Punch is a precision machined industrial grade tool that will save you both time and money. It works seamlessly with the **Petit Popin Outlet (page 3)**, giving you reliable high quality results everytime. The fit-up between the gutter and outlet is tight and only needs a bead sealer for a no-leak installation.

The **345 Oval Punch** makes a precision hole in either 5" or 6" gutters, designed to work with our **345 Oval Popin Outlet (page 3)**.

The **3"x4" Oval Punch** will fit most oval outlets with a lip for fastening with rivets or screws. The advantage of the oval is that you can then turn an elbow easily. This punch can be used with 5" or 6" gutter.

The **3 3/8" Round Punch** is used with 6" gutters - save time and money using it with our 3 3/8" Round Popin Outlet. This punch fits all 6" gutter and some 5" gutter.

Heavy duty and nearly indestructible, these punches can be sharpened at any tool shop. **YOU CAN ALSO SEND IT BACK TO US - FOR A NOMINAL CHARGE WE WILL FIX IT UP LIKE NEW.**

The smaller round punches fit 5" gutter and the 3" and 4" round punches work with both 5" and 6" gutter.
